DEATH'S TOLL AT SAKURA UNKNOWN

No Authentic News from Japan's Overwhelming Calamity Is Pitiful Feature

BELIEVED AMERICANS ALL ESCAPED UNHURT

Warships Being Rushed to Scene Loaded With Supplies and to Rescue Refugees

TOKIO, Jan. 14.—No Americans are believed to have perished in the terrestrial disturbances here within the last few days. The eruption of Sakurajima continued today, but was less violent than before. Earthquakes are still intermittent. Refugees here say that yesterday's shocks were so severe that they were compelled to crawl many miles, being unable to stand on account of the shocks.

Other volcanoes on southern Japanese islands are rumbling and showing other signs of activity, and further eruptions are feared.

Death Many and Horrifying
The absence of authentic news from the center of the volcanic disturbances is a most pitiful feature of what may prove the most terrible disaster in Japanese history. "Thousands may die," is the only estimate official circles offer. There is absolutely no estimate yet, as the cruiser Tane, the only vessel that has penetrated the district, replied that thousands have been rescued, but that deaths are many and horrifying. Other ships are now in the vicinity of Kagoshima Gulf. It is believed the loss of life is the greatest on Sakurajima, which cannot yet be visited. Kagoshima has undoubtedly suffered terrific damage, but the faltering reports indicate no great loss of life. Officials here believe that few there are dead, although the city is believed to be practically ruined.

Karl Drichman, the American consul at Nagasaki, has wired to Tokio that a private message from Kagoshima said all the Americans there had escaped to Sendai. The government is commandeering all ships and sending them, with warships loaded with provisions and medicine, to bring the refugees away. Starvation is threatened.

MILLIONS OF JAPANESE STARVING—CROP FAMINE
TOKIO, Jan. 14.—Millions of Japanese are starving because of crop failures in Kikado, according to an announcement by the Japanese famine relief association.

L. A. I. DIRECTORS WERE RE-ELECTED YESTERDAY

LOS ANGELES, Jan. 14.—The president directors of the Home Makers were re-elected yesterday afternoon at the annual stockholders' meeting held in the basement of the Los Angeles Investment building.

The directors are Arthur W. Kinney, president; G. L. Crenshaw, vice-president; Frank Simpson, secretary; W. J. Washburn, treasurer, and Frank P. Hunt, Fred L. Baker and Louis M. Cole. It is understood that the reorganization will result in practically the same officers of the directorate.

About 300 persons attended the meeting, and the votes were cast with practical unanimity for the existing board of directors, 5,150,000 shares being voted.

LIFE OF CHERIF PASHA MENACED—INVADER KILLED

CONSTANTINOPLE, Jan. 14.—An attempt to assassinate Cherif Pasha, former Turkish ambassador to Sweden, was made today by an unidentified Armenian. The latter entered the Pasha's apartments and shot Cherif's valet three times. Cherif's nephew seized the valet's revolver and killed the invader.

WINDOW IS SMASHED AND BURGLARS STEAL GOODS ON DISPLAY

Last night burglars broke out a plate glass window in Will Houts' sporting goods house at Anaheim, and stole about \$200 worth of property that had been on display in the window. Revolvers, including two with Mexican coat of arms, knives and a gun or two are included in the loot.

Burleson Plans 100-Pound Limit For Parcel Post

WASHINGTON, Jan. 14.—Postmaster-General Burleson admitted today that he is considering seriously the increasing of the parcel post limit to 100 pounds. He said: "During the fiscal year, beginning July 1, I think we will transport approximately 600,000 pounds at approximately 10 cents per pound. I just want to say here that the thought of a 100-pound limit does not terrify me."

MAN AND WOMAN FOUND GOLD IN DEATH

Arthur Cunningham Kills Self and Realty Partner on Long Beach Road

LOS ANGELES, Jan. 14.—Seated in the front compartment of an automobile and clasped in each other's arms, the dead bodies of Mrs. Viola A. Kerr and Arthur E. Cunningham, both prominent in business circles of Long Beach, and partners in the real estate business, were found on a lonely road at the outskirts of Long Beach at sundown yesterday.

For more than two hours the machine of death stood at the road side. People passed by from time to time without giving a second thought to the couple seated in the front seat of the car. They were first seen at 5 o'clock.

After the discovery of the tragedy, inquiry developed the fact that Cunningham had given up his wife from an infatuation for Mrs. Kerr.

COBEQUID GOES ASHORE AT YARMOUTH

Snagged on Trinity Ledge—All Passengers and Crew Are Reported as Safe

LINER'S HULL YET ABOVE WATER—LAURIER IS NEAR

Fruitless Search Made Through Night and Forenoon by Rescue Ships

HALIFAX, Jan. 14.—The Cobequid is reported ashore on Trinity Ledge, at Yarmouth. Her hull is yet above water, and all of her sixteen passengers and 102 of her crew are safe. The weather is clearing. The steamer Lady Laurier, twenty miles distant, is rushing to the aid of the wrecked liner.

SEARCH OF MORNING HAD REVEALED NO TRACES
HALIFAX, Jan. 14.—Tugs left Halifax today under forced draught to inspect wreckage adrift near Yarmouth, believed to be portions of the Cobequid. No definite words of the liner's fate has been received here. Rescue ships have endeavored Briar Island several times but no trace of the Cobequid could be found.

The heaviest seas in years are running off Halifax today. The many vessels searching for the Cobequid had difficulty in holding their positions. Wireless messages from them stated that there are no traces of the Cobequid between Briar Island and Grand Manan. It is not learned how many were aboard the Cobequid but it is believed that the passengers and crew comprised at least seventy persons, perhaps more. The wreckage reported as found near Yarmouth consists of portions of a ship's cabin step-ladder and a signboard reading "Double propeller; keep clear."

Rays of Hope
Another ray of hope was felt this afternoon when a wireless operator aboard the Lady Laurier picked up distress signals that he believed were from the Cobequid, but he was unable to get anything but the "S. O. S." call. A wireless to St. John's from the steamship Royal George stated that vessel had picked up a distress call from the Cobequid at 10 o'clock this morning, but that the operator was unable to get a reply when he asked for the Cobequid's position. The government steamer Aberdeen also reported hearing a faint "S. O. S." today but did not know whether or not it was from the Cobequid. Thick weather prevails off L'Anse-au-Loup, where the mariners believe the Cobequid is, if it is still afloat.

Eastport, Me., Heard of Wreckage
EASTPORT, Maine, Jan. 14.—A wireless received here this morning said that portions of wreckage of the Royal Mail liner Cobequid, which went aground off Briar Island yesterday, had been located. It is not known yet whether or not there were any fatalities. The Cobequid wirelessly for aid yesterday, her calls ceasing about noon while several ships were rushing to her aid.

MARITIME EXCHANGE DOES NOT CONCEDE SHIPWRECK
NEW YORK, Jan. 14.—The Maritime Exchange denied that wreckage of the Cobequid had been located, despite affirmative messages from Eastport and Halifax. The exchange declared the discovery does not necessarily mean the ship is lost, explaining that the wreckage might have been washed overboard or jettisoned.

No News at Washington
WASHINGTON, Jan. 14.—At 11 o'clock this morning no word had come from the revenue cutter Woodbury, sent in search of the Cobequid. A wireless from the cutter last night said it expected to reach the Cobequid today and that seventy persons were aboard the liner. Governmental departments are trying to reach the cutter by wireless to learn if it has definite information as to whether the liner is still afloat or not.

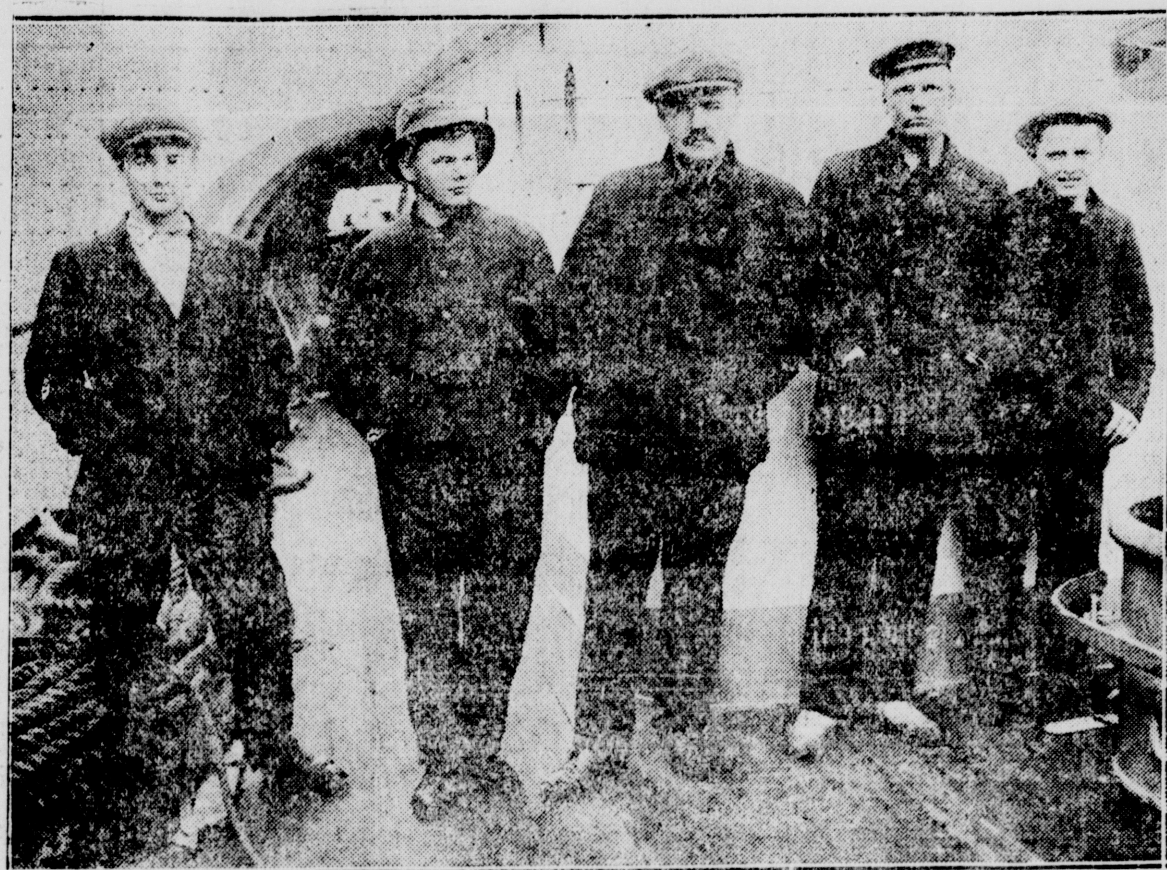

CHICAGO BANKS TO JOIN FEDERAL RESERVE SYSTEM

CHICAGO, Jan. 14.—Several of the larger banks of Chicago in the annual meetings of their stockholders yesterday voted to accept membership in the federal reserve banking system. Among these are the Corn Exchange National, the Live Stock Exchange National and the Fort Dearborn National.

Stockholders of the Continental and Commercial bank approved the action of the directors on January 6 in voting to join the federal reserve organization.

PRIZEWINNER KILLED LOVER
PARIS, Jan. 14.—Awarded the annual prize at Amiens three years ago for "virtue and nobility of character," Lucie Chantreux today began serving a sentence of life imprisonment for causing the death of her lover, who had killed her, by throwing a pint of vitriol over him while he slept.

Five Men Saved From Open Boat Run Down by Liner After Wreck of the Oiler Oklahoma off Jersey Coast

From Left to Right—George Johnson, Fred Boe, Jacob Swanstrom, Wilji H. Haah and John Koarch.

The Booth liner Gregory, which plies between New York and Brazil, Sunday, Jan. 4, saved five men who had escaped in a small boat from the oil steamer Oklahoma, which was wrecked fifty miles off the Jersey coast in the storm that destroyed many million dollars of property there. The oil steamer broke in two and eleven men got away in an open boat while the sea raged mountain high about them and a wind almost as cold as zero swept over them. The officers of the Gregory did not see the boat till they were upon it, and then they were so close they could not stop. They ran it down, spilling the men into the water.

Three men of the Gregory—R. H. Buck, chief officer; Third Officer Roberts, and Second Officer Williams—seeing there was no time to lose, jumped into the raging sea fully clothed. They hauled up five men almost drowned or exhausted from exposure and the body of one who died as the boat swamped.

There were eleven men in the boat when, after several capsizings, she managed to get away from the sinking stern of the tank ship. Two were lost when she turned turtle the first time and three more when she was near the Gregory. Third Officer Roberts brought up one man in his arms after a terrific struggle with the waves.

The two almost exhausted forms were hauled up even with the rail by means of a line around Roberts' shoulders. The man he held in his iron grip was unconscious and apparently lifeless, but Roberts clung to him desperately. Dr. Bassett Kirby, the Gregory's surgeon, came to the rail and after looking at the man, said:

"No use, Roberts," and the lifeless body was allowed to slip back into the sea, only a slight ceremony attending its burial.

After the five rescued men were got aboard it was some hours before they had all been restored to consciousness. "They lay on the deck like dead men," said Dr. Kirby, describing the scene. "Blue as indigo, that fellow was," said Captain Aspinwall, indicating Fred Boe, the Norwegian storekeeper, who came aboard almost naked. Strangely enough, it was Swanstrom, a sailor and biggest physically of the five, who was hardest to revive. "We took a gallon of water out of him," said Dr. Kirby.

"That fellow jumped overboard with his boots on," said Captain Aspinwall, pointing to Roberts, his heroic third officer. "What do you think of a sailor doing that?"

Prosperity reigned in Santa Ana during 1913. That report was received at each of the annual meetings of the three national banks of Santa Ana yesterday. Each bank reported to the stockholders a gain in business and general prosperous conditions in business in Santa Ana.

None of the national banks made a change in a directorate. The Santa Ana Savings Bank, with the First National Bank, made no changes, and the Home Savings Bank, with the Farmers and Merchants National Bank, elected C. A. Riggs as a director to take the place of Dr. J. R. Medlock, deceased. On the board of the F. and M. bank, Robert M. Simon was elected several days ago to fill the vacancy caused by Dr. Medlock's death.

The directors re-elected by the First National Bank are: M. M. Crookshank, Joseph Yoch, A. Getty, C. S. Crookshank, G. W. Minter, C. E. Parker, John McFadden, Dr. C. D. Ball, C. E. French, H. C. Dawes and G. W. Ford. The board elected officers as follows: M. M. Crookshank, president; Joseph Yoch, vice president; A. J. Getty, vice president; C. S. Crookshank, cashier; F. M. Robinson, Asst. Cashier; W. B. Tedford, Asst. Cashier.

The Santa Ana Savings Bank directors and officers are: M. M. Crookshank, president; A. Getty, vice president; C. S. Crookshank, cashier and secretary; John Awe and A. C. Bowers, with J. H. Metzgar assistant cashier.

The California National Bank stockholders meeting re-elected directors as follows: John Cubbon, A. R. Hervey, Wm. F. Lutz, M. Nisson, Geo. H. Randall, C. P. Remsburg, Charles Ross, J. G. Quick, A. J. Visel.

Officers of the bank were re-elected as follows: John Cubbon, president; A. J. Visel, vice president; Wm. F. Lutz, cashier; A. R. Hervey, assistant cashier.

F. and M. National
The Farmers and Merchants National Bank stockholders elected the following directors: W. A. Huff, C. F. Mansur, J. D. Parsons, R. E. Larter, D. Halladay, C. A. Riggs, Sherman Stevens, R. M. Simon and J. A. Turner. The officers re-elected are: W. A. Huff, president; R. E. Sanborn, vice president; C. F. Mansur, vice president; J. A. Turner, cashier; H. T. Rutherford, Asst. Cashier; J. Howard Turner, Asst. Cashier; A. F. Zaiser, Asst. Cashier.

The Home Savings Bank directors are: W. A. Huff, C. F. Mansur, J. A. Turner, C. A. Riggs, Sherman Stevens and J. D. Parsons. The officers are: W. A. Huff, president; C. F. Mansur, vice president; J. A. Turner, cashier and secretary; E. P. Stafford, assistant cashier.

gail Adams, wife of the second president, hung her washing to dry.

Officers of the President's cabinet, many members of the Senate and House and others prominent in official life were present. The President himself and the members of the cabinet who stood at his side in the receiving line wore the conventional American evening dress, the contrast with the profusely gilded uniforms bearing the insignia of rank of the diplomats presenting a striking picture.

CHAOS ON BUTTER BOARD
CHICAGO, Jan. 14.—Is the Elgin butter board about to become a thing of the past? The question was asked often yesterday following the announcement that thirty-five of the sixty-seven members, who have fixed the price of butter for years, have resigned from the board. Those who resigned declare the board is ruled by four men who have no butter to sell and for that reason, does not represent the butter trade.

COLD WAVE NOW RECEDING IN THE EAST

Nine Died of Exposure Last Night—Cold Weather Yesterday Worst of Years

NEW YORK, Jan. 14.—The weather bureau announced today that the cold wave was receding. At noon the temperature here was five degrees above zero and still rising. Nine people died of exposure to cold here during the night.

YESTERDAY'S COLD MOST INTENSE OF MANY YEARS
NEW YORK, Jan. 14.—Intense cold, which has not been equalled since 1899, swept the eastern states and seaboard yesterday.

At midnight last night the official thermometer on the Whitehall building had dropped to six below zero. At that hour the total record in the metropolitan district of loss of life from exposure or otherwise traced to the storm was an even dozen and reports were still coming in. The number of those overcome by the cold and injured by the caprices of the wind was considerably higher.

The cold was intensified by a gale which late in the afternoon reached its highest velocity of seventy-one miles an hour.

The suffering among the poor was the greatest in years, and all agencies of relief were taxed to their limit. Drivers were taken half frozen from their trucks; homeless men were overcome before they reached relief stations, and were taken to hospitals.

All shipping was practically at a standstill. The only ship to get into the harbor from foreign ports was the Havana, from Havana. Other ships, which ordinarily would have made their berths sometime during the day, were delayed by the storm.

The official record for the day was attained by Northfield, Vermont, with 24 degrees below zero.

Philadelphia shivered under 3 degrees above. Chicago was fairly comfortable with 26 above, and St. Louis raised this to 34. The warmest place on the continental United States, so far as the weather bureau records went, was Phoenix, Ariz., where a temperature of 70 degrees prevailed.

Taking unofficial figures from certain other places on the continent, White River, Ontario, reported 48 degrees below early in the day. Sault Ste. Marie had 28 below, and Plattsburg, 30 below.

The temperature through the central part of the state is indicated by Syracuse's figures of 22 below.

PRESIDENT HOLDS FIRST BIG LEVEE

Reception Last Night Roused Social Interest—Plenty of Dignitaries There

WASHINGTON, Jan. 14.—President and Mrs. Wilson held their first big levee last night at the White House. Because of the fact that they were away from the city and did not hold a New Year's reception, as has been the custom in the White House for 100 years, there was great interest in tonight's affair.

One of the interesting features of the evening was the fact that the tango, which Minister John Barrett says is an Argentine dance, but solely an American diversion, was danced in the east room, where Mrs. Ab-

ident; C. S. Crookshank, cashier and secretary; John Awe and A. C. Bowers, with J. H. Metzgar assistant cashier.

STRIKE TIES UP SOUTH AFRICA

Every Union Worker in Land Ordered Out Today by Trades Federation

MARTIAL LAW PROCLAIMED ON ISSUANCE OF ORDER

Death Penalty for Dynamite in Hand—Picketing Illegal—Drastic Measures

CAPETOWN, South Africa, Jan. 14.—South Africa faced today the greatest strike any country has ever experienced, when every union worker in the land was ordered out. The walkout decree was issued last night by the Trades Federation. It is too early yet to see what the full result of the order will be, but it is predicted that it will be generally heeded.

Martial law prevailed today, the proclamation following immediately upon the issuance of the general strike order. Meetings have been prohibited, picketing is declared illegal, and the death penalty has been ordered for anyone found in the possession of dynamite. The soldiers have been ordered to fire upon prowlers about any building that the strikers might want to have destroyed.

The railroad tie-up in the Transvaal and Orange state is practically complete but is only partial in Cape Colony and Natal. Provisions are short in many places.

JOHANNESBURG, Jan. 14.—A battle is raging this afternoon between forty armed strikers entrenched at the Trades Federation's local headquarters, and police and militia surrounding them on all sides. Anticipating the attempts of the authorities to raid Federation Hall, the strikers chose forty men to defend it. They were provisioned for two weeks and have a quantity of ammunition. Their position is strong and the authorities believe they must establish a siege.

A NEW BOARD WAS ELECTED

Four Members of the Old Directorate Are Put on the New

Yesterday afternoon's election in Santa Ana Chamber of Commerce resulted in the election of E. A. White, G. S. Smith, W. A. Zimmerman, H. T. Rutherford, E. E. Vincent, Carl G. Strock, J. E. Scott, Fred Rafferty, H. A. Gardner and G. B. Shattuck as directors for 1914.

Zimmerman, Rutherford, Rafferty and Shattuck are members of the present board. The new directors will meet Wednesday night of next week for organization.

RESERVES BANK COMMITTEE SOON TO VISIT CITIES

WASHINGTON, Jan. 14.—Revised plans for the western trip of the reserves bank organization committee were made public last night. Among the cities in the western trip to be visited are the following: Chicago, January 19 and 20; Lincoln, January 21; Denver, January 25 (Sunday) and January 26; Seattle, late afternoon January 28 and 29; Portland, Ore., January 30; San Francisco, afternoon Sunday, February 1, and February 2 and 3; Los Angeles, February 4 and 5 and half day February 6; El Paso, afternoon February 7; Houston, Tex., February 9 and 10.

BOARD OF SUPERVISORS

CURIOUS BREADS.

Made In Chains In The Balkans and Laundered In China.

Bread is made in different shapes and in different ways, according to the taste of the various nationalities. Mr. L. Lodian in Forest and Stream says: "The bread of the Balkans, curiously made in the form of chains, is sold from the arms and necks of itinerant peddlers. In tent life in Balkania the detached links are often used for fun at quots or serve a more useful purpose in suspending temporary curtains and awnings. Then when the campers run out of provisions they literally eat their curtain rings! The Japanese bamboo bread, so named from its shape, is a somewhat similar product. It is sliced and sold in strings.

"The sun dried bread sheeting of central Asia looks much like chamois leather and is made up in pieces of bed sheet size. It is compounded from flour and raisin sirup and is highly esteemed by coffee drinkers. In the bazaars of the caliphates it is frequently seen hanging in place of awnings to shield the stalls from the sun.

"One of the strangest crackers comes from Russia. It is known as fit the mouth begl and, besides being much appreciated as a tea biscuit, is quite commonly used by merchants ignorant of the three R's as a makeshift abacus in counting money, a lower string of ten serving for kopecks and an upper string of the same number representing roubles. More picturesque still is its usage as an extempore ring for marrying poor peasants with whom the gold is lacking.

"Most singular of all, however, is the peculiar pith bread of China, which, instead of being baked, is laundered out in narrow strips with a hot iron, much in the manner that a collar receives its finishing. It is made from the central tissue of the fatia trees and is valued highly by the citizens of the 'flowery republic' as a dainty cracker to eat with their little cups of watery, unsweetened tea."

TORPOR OF THE TURK.

Shown In A Quaint Reason For Not Delivering a Message.

An interview in the New York Sun between one of its reporters and Mr. Bedros Keljik bears humorously on the Turkish situation and seems to indicate that what is needed is not increased political activity, but more attention to business. As an illustration of the everyday torpor one of the experiences of Dr. Riza Tewfik, member of parliament for Adana, with a Turkish official may be cited.

Dr. Tewfik was visiting a friend at Adana, and, crossing the Bosphorus, about 10 o'clock at night he heard the watchman call, "Yanagin var, yanagin var" ("There is fire, there is fire in Galata"), the usual alarm given when the breeze blows out in any quarter.

It happened that Dr. Tewfik's own home was in Galata, and he rushed to the nearest telegraph office to inquire concerning the safety of his family. He received no answer to his telegram, and his fears were roused. But as no boats cross the Bosphorus at night he was obliged to wait till morning.

He got home at last to find everything safe. When he asked why his family had not answered the telegram he was told that they had not received any. So, Dr. Tewfik went to the telegraph office and demanded an explanation. One Osman Agha, to whom Dr. Tewfik's telegram had been given for delivery, was called.

"Where is the offend's telegram?" Osman Agha fumbled in his pockets and drew forth the message. "Why did you not deliver it?" demanded Dr. Tewfik angrily. "Oh, offend!" answered the imperturbable Osman Agha, who had evidently perused the telegram to his own satisfaction. "It was needless. I knew that your house was not on fire."

Suspicious of Bankers.

In a remote farming district in which I once passed a few days I was told of a wealthy farmer whose friends, fearing he would be murdered, succeeded after an infinity of trouble in persuading him to take his money to a bank. When he interviewed the manager he asked how much the bank would charge for taking care of his cash. The manager replied that it would charge nothing, but would pay him something. "I always knew you were rascals!" he retorted, and marched off, money and all.—London Citizen.

Very Thoughtful.

"The clocks," said the bride, "are simply beautiful, and it was lovely of you to give them to us. But—you won't think me inquisitive?—may I ask why you gave us a pair of them? Of course it was perfectly"—

"I gave you two of them," interrupts the friend, "because I'm very fond of both of you, and if you ever get divorced you will each have something to remember me by."—Chicago Post.

Avoiding Comparison.

"What is your objection to me as a son-in-law? My character is beyond reproach." "That's just it," said Mr. Olisport. "You don't suppose I want to go through the rest of my life having you held up to me as a shining example!"—Washington Star.

Leaving Earth.

She—My husband has just left earth. He—How's that—is he dead? She—No; he's just gone up in an aeroplane.—Pele Mele.

Never put all of your goods in the front window—they may fade.

AN INSPECTOR IN HIS OFFICE

Law Leaves Deputies and Inspectors Up to the Commissioner

Yesterday afternoon J. A. McFadden, D. E. Huff and Willard Smith as a committee of the Orange County Fruit Exchange held a conference with the Board of Supervisors and Horticultural Commissioner R. K. Bishop in regard to the committee's request that additional inspectors and deputies be put into use in a campaign against scale pests. The district attorney advised the board that the matter is entirely in the hands of the commissioner. Bishop stated that he would appoint an inspector to be in his office every day of the week. At present Bishop's time is taken up almost entirely with field work, and oftentimes people who desire immediate information cannot reach him by telephone. Under the new arrangements conditions in that regard will be materially improved. The inspector will be paid \$3.50 a day, the amount prescribed by law.

To Buy Trees

The supervisors have decided to plant Valencia oranges on a portion of the county farm at West Orange, and on Feb. 4 will open bids for 1000 trees.

A deed from C. C. Chapman for a strip allowing a curved turn at a corner at Placentia was accepted. On Feb. 4 bids are to be received for finish hardware, electric fixtures and refrigerators for the new County hospital.

The bid of P. L. Ferry for road oil to be used on good roads work was accepted. His bid was \$2.40 a barrel. Three other bidders named the same figure, but Ferry's bid was accepted on the recommendation of the Highway Commission.

G. T. Shaffer's petition to cross a county road with a pipeline was granted.

Made a Misdemeanor

The board passed an ordinance making it a misdemeanor for any person to plow up any portion of a county road or to remove, any material from a county road. By some parts of the county ranchers have been careless in plowing and have damaged roads considerably.

The Dawn Land Co. was granted a permit to connect with the county pipeline at the county farm.

The board adjourned to Jan. 20.

TWELVE TIMES POPULATION IS A PREDICTION

Annual Banquet of County Real Estate Association

Orange County real estate men gathered for their annual banquet at the Hotel Santa Ana last night. Twelve times the population of the county is predicted for the year 1920, according to the figures presented by the association.

Mrs. Goodsense—"Send me a carton of Fels-Naptha, too. I'm nearly out. I like to keep plenty on hand, because it's the greatest help I know of to women who do their own work."

Anty Drudge—"I'm glad to hear you talk so, Mrs. Goodsense. I wish more women would buy Fels-Naptha Soap by the box or carton. I'd rather get out of toilet soap, because I often use Fels-Naptha for my hands. It doesn't hurt the skin."

When you buy a box of Fels-Naptha, you buy more than a box of soap—you buy rest and comfort.

Fels-Naptha will do your work the easy, sensible way; and it will do the hard, tiresome, part of your work for you. Fels-Naptha Soap works best in cool or lukewarm water.

By following the directions on the Red and Green wrapper you can save time, strength and trouble. Better buy it by the carton.

thousands to this coast. Just what Orange county will get out of these great events will depend in a large measure on what Orange county "goes after."

These were some of the leading thoughts brought out at the first annual banquet of the Orange County Real Estate Association, held last night at Young's Cafe, on North Main street. Various matters of importance to those interested in the development of the county were discussed, and some rather surprising figures were brought out.

Nearly fifty real estate dealers from all parts of the county, including a number of ladies, gathered around the prettily appointed tables at 7:30. The tables had been decorated in a most appropriate scheme, miniature farms, orchards and even a perfect reproduction of a sugar factory being the center pieces. After the guests had been seated President J. R. Schooley of the association requested that each guest write his name and address on the card found in front of his plate, and these were then collected and the roll called, each responding by rising. Following this Rev. W. T. Van Cleave gave the invocation.

A splendid menu was served under the direction of Manager Young, and after full justice had been done to it this business session was taken up. Vice-presidents of the association were elected as follows: Anaheim, P. H. Tobin; Fullerton, Geo. Riddick; Huntington Beach, E. C. Wright; Orange, S. M. Cradick; Placentia, C. E. Vogel; Santa Ana, F. D. Drake; and Tustin, J. R. Schooley.

President Schooley announced that the program for the evening included the subjects, first, *Immigration and Migration*, and second, the proposed *Torrens Land Law*. He first called on S. M. Cradick of Orange, whose subject was, "What Orange County Has for the Immigrants."

"The first problem which occurred to me in the consideration of this subject," said Mr. Cradick, "is as to how much room we have for those looking for homes and for a living for themselves and families. On investigation I find that Orange county now has only forty-three inhabitants to the square mile. The great state of Ohio has 102, and it is only reasonable to suppose that we can take care of several times as many as Ohio, because we are growing things here the year round, instead of only a few months in the summer. Going further, I find that in England and Wales there are 553 inhabitants to the square mile. China and Japan probably have a much higher proportion, but we will not consider them."

"Again, I find that there are now 3165 farms in Orange county, and the average size is what would you guess? I guessed twenty acres. What would you say, Mr. Peters?" addressing the County Recorder.

Mr. Peters guessed fifty acres. "The average is 117 acres. It might as well be ten, or even less, for the man who handles ten acres properly in Orange county can make more than a good living."

"We have been so used to talking oranges and lemons that many people get the idea that Orange county raises nothing else. We must talk a greater diversity of products. In looking up statistics I find that the sixteen counties which we call Southern California in 1912 had a citrus output of \$34,000,000, while the cows and hens of those counties produced \$51,000,000. In Orange county last year the vegetable output, including sugar beets, was worth three times as much as the citrus crop."

Mr. Cradick suggested that local and district immigration boards, designed to look out for opportunities and present them to the immigrants, could accomplish a great work.

T. B. Talbert, chairman of the Board of Supervisors, had for his subject the Orange county coast line. He said that our particular ocean front is the choice of the southern coast, and gave several reasons, among them being that artesian water can be found right up to the beach line, something no other part of the coast enjoys, that the coast line is a smooth one, making all parts of it available for development, that fuel oil from the Orange county fields may be had on any part of the coast by gravity flow. Mr. Talbert said that all parts of our water front are peculiarly adaptable for manufacturing, and that this was a feature to which we had not given the attention it deserved. He foresaw a great industrial future for the Orange county coast line.

S. R. Coakley of Fullerton had for his topic "Orange County and the Expositions." He said that Orange county was going to benefit from these affairs just in the measure that

she prepared to benefit. He urged organization to grasp the opportunities offered.

L. A. Evans of Anaheim had for his subject the Torrens Land Law, but his prelude covering a history of the science of government from prehistoric days exhausted his time, and the chairman expressed the hope that a further talk on the subject might be had at the next meeting.

Short talks were made by a number of members, the burden being as to the benefits already apparent from the formation of the county organization, and an expression of enthusiasm for the future.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Troubles.

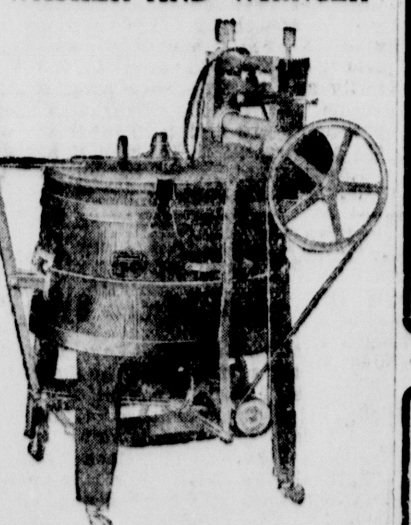

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back, or sick headache, dizziness, your stomach sour, tongue coated and when the weather is bad you have rheumatic twinges. The migration, and second, the proposed Torrens Land Law. He first called on S. M. Cradick of Orange, whose subject was, "What Orange County Has for the Immigrants."

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Advertisement.

HOME MUTUAL IN FINE SHAPE

Same Board of Directors and Officers Have Been Re-elected

The Home Mutual Building and Loan Association of Santa Ana annual meeting brought out but a light attendance, the confidence the stockholders have in the directors, John McFadden, C. P. Kryhl, J. D. Parsons, Frank Ey, Horace Fine, Ed Waite and Frank Vegely and the secretary, O. M. Robbins.

The report of the secretary showed the assets of the association to be \$540,704.14, including loans on real estate amounting to \$528,230. The gross earnings for the year are \$40,119.94, with net profits for apportionment, \$26,000.92.

Following the crash in the Orange County Mutual Building and Loan Association, the directors had the books audited by E. W. Hardy, and on top of that had a stockholders' committee consisting of H. L. Hanson and H. R. Andre check over the books. Hardy's report follows:

Gentlemen:—As requested, I have made an examination of the company's books from January 1 to December 1, 1913. All warrants drawn have been carefully examined, checked on the cash book, footings made of all items covering the period and the result has been the same as reported by the bank; also the deposits agreeing with records on the cash book. Checked the securities for loans from January 1 to December 1 and searched the records of the county recorder for releases of mortgages, the latter agreeing with the books of your association. All the records I have examined I have found to be correct in every detail.

Respectfully yours,
E. W. HARDY.

The report of the stockholders' committee follows:

Santa Ana, January 10, 1914.
To the Honorable Board of Directors of the Home Mutual Building and Loan Association of Santa Ana.
Gentlemen:—We, the undersigned, stockholders having been appointed as an auditing committee, beg leave to report that we find the books have been audited by Mr. E. W. Hardy, a competent licensed accountant, and found to be accurate and correct in every detail to December 1, 1913. We find that Mr. Hardy has compared the loans, mortgages and releases with the county recorder, also bills payable and cash on hand with the depository, all of which have been found to agree with the books of the association.

We have in addition checked the work from December 1 to December 31, 1913, and find the same to be correct. Finally, we checked the annual report to the stockholders, and the sworn report to the Building and Loan Commission, and find same to be accurate.

In conclusion, we wish to state that we find the books in their usual neat and orderly condition.

Respectfully submitted,
H. L. HANSON,
H. R. ANDRE.

Stockholders' Auditing Committee.
The board re-organized by electing John McFadden, president; Frank Ey, vice-president; H. T. Rutherford, treasurer, and the Farmers and Merchants' National Bank, depository. The president named Ed Waite, C. P. Kryhl and Frank Vegely as the securities committee, and J. D. Parsons, Frank Ey and Horace Fine as the finance committee.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-time Recipe that Anybody Can Apply

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 5-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant.—Advertisement.

ing place the voter should vote. This extra work is necessary owing to the fact that this is the first election since the four wards of the city were divided, making eight.

Very little comment one way or the other has been heard on the three issues which are to be voted on. The proposed issues are: \$20,000 for a city park, \$8000 for a fire hall, and \$7000 for a new and modern fire fighting apparatus.

At the time of the agitation last year for purchasing a city park, there were four sites talked of. Although no definite offers have been made yet this year, it is possible that some of these old sites will still be offered.

These sites as proposed were the eighteen lots on South Los Angeles street, just north of the Southern Pacific depot; the 10 acre tract at the corner of South and Los Angeles street, which at that time were offered for \$12,000 by J. D. Lavin, the lots on Lemon street which were offered by H. Deutsch, and the block on West Center street which was offered by Dr. Johnston. This tract is the most centrally located, being situated just opposite the Christian church and which is now occupied by the cement works. The price asked at the time it was offered last year is understood to have been \$24,000.

4559 PEOPLE PASS STORE IN ONE DAY

Just out of curiosity John Beatty, of Crookshank-Beatty Co., yesterday hired a man to stand in front of the new store the company is to occupy next month, and count the number of people passing the store. Between 7:30 a.m. and 6 p.m. 4559 people passed the store, and in making the count no children were included.

That indicates that Sycamore street is a busy street. The location of the postoffice at the corner of Third and Sycamore is largely responsible for the piling up of the hundreds.

The new store makes a superb location, and with its well known reputation and good goods, the traffic on Sycamore street is certain to be materially increased when that store moves to the old postoffice location on Sycamore street next Monday.

M. and M. Directors Held Meeting and Discussed Membership

At a meeting of the new directors of the Merchants and Manufacturers' Association last night, J. C. Metzgar was elected secretary of that organization. Metzgar will do the work and continue as secretary of the Santa Ana Chamber of Commerce. He is a good hustler and has the confidence of the business men of the city.

The directors discussed methods of increasing the membership of the association, and increasing its usefulness to the members. It is the expectation of the directors to make the protective features more effective. E. S. Gilbert, the new president, presided at the meeting.

AMUSEMENTS

Clever Billy (Single) Clifford Here Soon

Billy (Single) Clifford, the comedian, is headed this way. He is blazing a trail of laughter across the continent and in so doing has been wonderfully successful. He will be seen in his merry laugh-creating vehicle, "Believe Me," at the Grand Opera House on Thursday, Jan. 15, for one night.

This clever play is a musical satire in which the central figure is a rollicking young Englishman. Naturally he gets himself into all manner of scrapes and his actions during this time furnish many a hearty laugh. Mr. Clifford plays the role of the gay young man, and he not only affords much fun, but he also sings many good songs which are really new.

MIDWINTER ADVERTISING

To one who follows the advertising game for a period of years, the buying public resolves itself largely into two classes: First, there are the people who buy when they feel like it, or run short of articles, without much system; second, those who watch the local trade market as keenly as the buyer of a manufacturing concern watches the commercial papers.

The method of the second class may take time, but it is scientific buying. The canny housewife knows that in the month of January, the merchant is up against the proposition of reducing stocks. Not all his ventures have succeeded. He did not expect them to. Some chances must be taken. Irregularities in weather and caprices of popular taste have left parts of his stock unsold. He must do one of two things—carry stock over and borrow money to hold it and pay heavier insurance and take chances of style changes and deterioration, or cut his prices.

The majority of the merchants cut prices regularly during the latter half of the winter, to meet these conditions. The scientific buyer makes the bulk of the winter purchases during this period. What is not needed this season will be useful another winter.

This trade is mostly reached through advertising. Every advertisement at this time of year is closely scanned, not merely with the casual hope of some unexpected bargain that may fit in some time, but in pursuance of a settled policy of buying in the lowest market.

As it takes too much time to run around to all the stores and see what the merchants are doing, the public watches the newspapers, and visits the places that have made known their bargains. January is peculiarly a month when the newspaper is a directory of economy. The people who don't read the store advertising miss chances to keep the cost of living down.

ROADS OF THE FUTURE

What will be the type of road construction in the future which will best withstand the traffic conditions is a question which is uppermost in minds of good road advocates.

Mr. S. D. Waldon, of New York, is quoted as saying that the roads of the future will be concrete for the main lines of travel and gravel for those where traffic is lighter. Experiments so far have been quite favorable to the concrete roadway. In Bellefontaine, Ohio, there is almost a half mile of this construction built some twenty years ago, and the upkeep expenses during all this period has been about \$150. The wear has not exceeded three-quarters of an inch where horses have traveled over it. This type of roadway is easily kept clean and makes an unsurpassed road for motor travel.

It is said this same town has had an experience with macadam which has not been nearly so satisfactory. Ten years ago 4000 feet of macadam roadway was constructed, and today the town council is preparing ordinances to replace that worn out section with brick.

IDA M. TARBELL ON THE SUBJECT OF DRINK

In the January American Magazine, Ida M. Tarbell writes a fascinating account of the work of the Court of Domestic Relations in Chicago—a court devoted to the work of settling cases that arise out of marital troubles. On the subject of drink as a cause of such troubles Miss Tarbell says:

"The havoc that drink plays in domestic troubles has never been exaggerated. It is by far the most fertile cause of separation. Last year Judge Gemmill put a system into operation by which he hoped to determine approximately the cause of family separation. The conclusion was that in 46 out of every 100 cases it is due to excessive drinking.

"The discouragement lies in the fact that in the case of excessive drinking it leaves nothing in the man which can be deeply touched. The stomach may hold out indefinitely, the character never does. The man gradually loses all need of respect for himself and for others. He becomes a shameless hanger-on. He lies fluently and habitually to his best friends. He tricks and cheats them with unconcern. There is little or no help for such cases while they are at large."

BUNGALOW COURT CONSTRUCTION IS TO BE RESTRICTED

PASADENA, Jan. 14.—In all probability an effort will be made in the near future by the city authorities to have a restriction placed on bungalow court construction. Applications are pending for permits to build as many as fourteen houses on an area of 52x152 feet—applications which the city now is not in a position to deny. This has called the attention of the commissioners to the need for housing legislation.

One application for a bungalow court building permit would allow only 10x10 feet of space to each of seventy people.

GUARDSMEN WORK FOR BILL
WASHINGTON, Jan. 14.—Prominent National Guardsmen expected today that the meeting of the National Guard Association executive committee and state adjutant generals here would result in a concerted effort to force the federal pay bill through congress. This measure providing that every guard member officer shall receive a small salary has met with opposition from the war department.

ORDINANCE NO. 104
An Ordinance prohibiting injury to county roads and other public grounds, and fixing a penalty therefor.

The Board of Supervisors of the County of Orange, State of California, do hereby ordain as follows:

Section 1. Every person who willfully, without malice and without being thereunto authorized by the proper authorities, digs up, blows up, removes, or breaks the earth, soil, or stone upon, or otherwise injures any county road, public highway, private way, street, alley, avenue or park, or any part thereof, laid out by authority of law, or otherwise dedicated, used, recognized or established as such, is guilty of a misdemeanor, and conviction thereof shall be punished by a fine not exceeding Three Hundred Dollars, or by imprisonment in the county jail, not exceeding ninety days, or by both such fine and imprisonment.

Section 2. This ordinance shall take effect on the 1st day of February, A. D. 1914, and prior to the expiration of fifteen days from the passage thereof, shall be published for at least one week in the Santa Ana Daily Evening Register, a newspaper printed and published in the County of Orange, State of California, together with the names of the members of the Board of Supervisors voting for and against the same.

T. B. TALBERT, Chairman of the Board of Supervisors of Orange County, State of California.
W. B. WILLIAMS, County Clerk and Ex-officio Clerk of the Board of Supervisors, State of California.
I, W. B. Williams, County Clerk of the County of Orange, State of California, and ex-officio Clerk of the Board of Supervisors thereof, do hereby certify that at the regular meeting of the Board of Supervisors of Orange County, held on the 13th day of January, 1914, at which meeting there were present, Supervisors H. E. Smith, Wm. Schumacher, Fred W. Struck, Jasper Luck and T. B. Talbert, Chairman presiding, and the Clerk, the foregoing ordinance consisting of two sections was considered and adopted as a whole by the following vote, to-wit: Ayes, Supervisors Luck, Smith, Schumacher, Struck and Talbert. Noes, None. Absent, None.
In Witness Whereof, I have hereunto set my hand and affixed the seal of the Board of Supervisors of Orange County, this 13th day of January, 1914.

W. A. HUFF

TO THE PEOPLE OF THE UNITED STATES

On Christmas Eve, 1814, Messrs. John Quincy Adams, James A. Bayard, Henry Clay, Albert Gallatin and Jonathan Russell, on behalf of the United States, and Lord Gambier, Dr. Adams and Henry Gouldburn, Esq., on behalf of Great Britain, signed the Treaty of Ghent, which ended the war between the two countries. Shortly thereafter Mr. John Quincy Adams expressed the hope, so wonderfully realized, that the peace thus restored should be enduring, saying, "May the gates of the temple of Janus closed here never be opened during the century."

A few months later peace societies sprang into being in both America and England; and within three years, by formal agreement, the boundary line between the United States and Canada became a mere political limitation, like the peaceful boundaries that separate the states of the American Union, instead of a series of fortifications between two nations mutually distrustful of one another.

Believing that the blessings that have followed in the train of the peace thus established cannot better be brought to the attention of the world at large than by a fitting celebration, the American committee at its initial meeting, held four years ago, formulated a plan for this purpose. The proposal was soon thereafter laid before the peoples of Great Britain and the self-governing colonies of the British empire.

The American committee was animated by a patriotic impulse and the belief that through an adequate worldwide celebration of a century of peace great good would be accomplished towards the rational settlement of international disputes. And it hoped and hopes to effect this through the creation of a sentiment which shall educate the people of the world to regard forbearance and mutual understanding as virtues to be cultivated by governments and nations, as well as by individuals.

The committee also considered that through the association of the peoples of many nationalities in a common commemoration necessarily there would result increased acquaintance, friendship and mutual understanding which are essential to permanent peace.

Therefore, the undersigned, a special committee acting for the American Committee, a body whose many thousand members are representative of every section of the United States, of every walk in life, and of every profession and calling and of the different elements from which our population is drawn, invite and urge co-operation throughout the United States, and the active, sympathetic interest of the citizens or subjects of all countries.

AT ONCE CLOGGED NOSTRILS OPEN, HEAD COLDS AND CATARRH VANISH

Breathe Freely! Clears Stuffed-up, Inflamed Nose and Head and Stops Catarrhal Discharge. Cures Dull Headache.

Try "Ely's Cream Balm." Get a small bottle anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone!

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm

dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dripping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.—Advertisement.

HAPPENINGS IN ROME

(By Henry Wood.)

ROME, Jan. 13.—Italian feminists are in the rather paradoxical position of having just won a victory for their movement without yet knowing just what the victory is. While the latter uncertainty isn't preventing them in the least from celebrating their accomplishments they frankly admit that they WOULD like to know what it's about. King Victor Emmanuel in his speech from the throne at the opening of the present parliament for the first time in the history of Italy advocated legislation in favor of the women of Italy. His precise words were these: "Legislation must be begun at this session for the revision of the Civil Code in order to give to woman the position that belongs to her in the family." If this had been a mere

and Premier Giolitti come across with some of the reforms which they demand.

The Socialist party being the only one that declared itself in favor of women's suffrage and other laws favoring women, the Italian feminists during the recent parliamentary elections threw their entire force in favor of the Socialist candidates. They worked night and day for them and the Socialists frankly admit that the increase of their number in parliament from 25 to 80 was in no small measure due to the efforts of the women. This increase in turn also forced King Manuel to give the Socialists representation in the senate and he created for the first time in the history of a European parliament three Socialist senators who hold their positions for life.

While the women are not flattering themselves that this was a very agreeable pill which they prepared for the King and Premier Giolitti, they are urging that it is a very effective one. Premier Giolitti is dependent on the Socialist votes for his majority in the Chamber and legislation in favor of women which was demanded by the latter from the Socialists will therefore be forthcoming, it is known, from Giolitti.

On the part of the women, they are naturally losing no time in inaugurating a propaganda for the various things they want. The demand for suffrage, of course, is one of the most insistent of these, but it is hardly considered likely that Giolitti will concede this for the present.

As a matter of fact the number of women in Italy demanding suffrage, while coming almost without exception from the more aristocratic classes, is nevertheless very limited, and Premier Giolitti is expected to enact some other reform that will meet with more general approbation from the women as a whole. This in all probability will be, as the King suggested, a change in the Civil Code which will give women the right of contract. This is something that a married woman in Italy does not enjoy. No contract of any kind can be signed by her without her husband's consent. Even the signing of a check for her own money must be approved by him, and it is the removal of this barrier that Giolitti is now believed to have up his sleeve in fulfillment of the promises of the King from the throne.

The death of Cardinal Oreglia, Cardinal Camerlengo to Pope Pius, has aroused intense speculation in Vatican circles as to who will be named his successor. This arises from the fact that following the death of a pontiff it is the Cardinal Camerlengo who becomes the temporary Pope during the ten or fifteen days which invariably elapse before the Sacred College can meet and elect a successor. As soon as a Pope dies the Cardinal Camerlengo hurries to the Vatican and entering the death chamber beats with a silver hammer three times on the forehead of the dead Pope, calling out his Christian name each time. If there is no response the Pope is declared dead and the cardinal Camerlengo at once takes up his residence in the Vatican with the full power and authority of a pontiff.

It is because of the power which the Cardinal Camerlengo thus enjoys and which he might use to bring about his own election as successor of the dead pontiff that has made it a tradition of the Sacred College that the Cardinal Camerlengo must never succeed directly to the Holy See. For this reason, it has also been a custom of popes for centuries past when there was some cardinal whom they did not want to succeed them to name him Cardinal Camerlengo.

CONGRESSMAN CURLEY ELECTED BOSTON MAYOR

BOSTON, Jan. 14.—Congressman James M. Curley was elected mayor yesterday by a vote of 43,309. Thomas J. Kenny received 37,250. There are no party designations at the municipal elections, although both men are members of the Democratic party. The present mayor, John F. Fitzgerald, suffered a severe illness shortly before the campaign opened and withdrew from the race.

Revival

Evangelist W. E. Shepard.

A little of the revival spirit somewhat like the revival now going on at the Nazarene University, Pasadena, Cal., seems to have come to the revival meetings now being held at the Church of the Nazarene, corner of Fifth and Barton streets. They are having a veritable Pentecost at the university, a hundred souls being saved in one day, with over fifty seekers at one time. No time for preaching, or study, the time being taken by the four hundred students and others in getting right with God, and helping the many people in that community into the kingdom of Jesus Christ. Evangelist W. E. Shepard, who is conducting the revival at the Church of the Nazarene in this city is a man of great faith. A great meeting is expected tonight. The beginning of the service will be a sing song meeting, when each one present who will is expected to lead in singing a verse of some gospel song. Evangelist Shepard will preach. Meeting every night at 7:30 and every day at 2:30 p. m. except Saturday.

EBELL MUSIC SECTION

Delightful and Instructive Address Given by Miss C. E. Dresser

The meeting of the Ebell Music Section at the Hull home on North Main street Monday afternoon proved to be a most delightful and instructive affair to all those present.

The afternoon's program was in charge of Miss C. E. Dresser, who presented her subject: "The Origin of Rhythm and Form in Music," in her own inimitable style.

Beginning with the first simple attempts of primitive man at emotional expression, she showed how the crude instruments and cruder forms of their day gradually developed from first mere noise and fantastic physical contortions—feeble attempts at the imitation of nature sounds—into the march, the dance, the cadence, the simple melody, on through the Canon, the Round and the Catch, down to the intricate harmony of our modern music.

As she proceeded, the speaker referred to the various influences that have contributed to the development of music as an art and explained the part it has played in the history of various different peoples. From time to time she illustrated the different forms of early music—writing a "Sarabande" by Handel, playing originally as a part of his German opera of "Elmyra," and again an Italian "Gavotte" by Giovanni Martini, 1706-1784.

As an illustration of the "Polonaise" Mrs. Padgham played a military number of Chopin's. Coming to the "Minuet," the speaker sprung a pleasing surprise by introducing two diminutive misses—Gwendolyn Tubbs and Fern Flood—who danced the quaint figures of this most famous old dance with all the charm and dignity of "Princesses of the Court."

An old English "Canon" of the thirteenth century sung by Mesdames Lord, Fyfe, Rafferty and Miss Havens, followed by an illustration of the "Catch," a humorous style of music in vogue in Handel's day, rendered by Mrs. Lord, Mrs. Fyfe and Miss Havens.

The speaker's intimate acquaintance with musical history and her broad culture in all that pertains to that branch of art enabled her to bring to her audience much information of peculiar interest to the student and devotee of music. Miss Dresser's happy faculty for selecting and arranging material, and her charming manner of presentation combined to make the hour one long to be remembered by her hearers.

Roosevelt Parents-Teachers
At the Roosevelt Parent-Teacher Association meeting held yesterday, the secretary read a letter from the president of the State Federation of Parent-Teacher Associations, giving a few plans for increasing the attendance at the association meetings.

One in particular was for the grade mothers to call on the mothers not attending, giving each a personal invitation to attend the meetings, and then for some one to call and accompany her to the meeting.

The question box, conducted by Mrs. Whitney, was very interesting. One especially interesting question was as to the advisability of a school fair. In view of the success of the fair held last year by this school, it was voted to hold a similar one this year.

The company was then divided into three groups, each with a leader, for the discussion of some one subject. Each leader progressed, and the table then took up another subject, a Round Table plan thus being successfully carried out.

Miss Faith Shaw, assistant kindergarten teacher, then took charge of the company and all formality was banished. A social time followed, which was greatly enjoyed.

BIRTHDAY—92 YEARS ATTAINED BY HONOREE

Mrs. Ann H. Titus enjoyed a small dinner party given on January 12, in her honor at the Seaside apartments at Newport Beach, where she is spending the winter.

Those present were Mr. and Mrs. J. Royal Lemon of Los Angeles, Mr. and Mrs. Geo. Waits of Long Beach, Mr. and Mrs. Fred W. Gilmore, her grandson, of Yorba Linda; Mrs. Linnie G. Lee of Santa Ana.

Her friends remembered Mrs. Titus with fragrant flowers and other gifts, the dinner having been given in honor of her ninety-second birthday, a most honorable and venerable milestone on life's highway.

WHITE RIBBONERS MEET

W. B. Tedford Home Scene of an Important Meeting—Social Hour followed

The W.C.T.U. held a very interesting meeting yesterday afternoon at the beautiful new home of Mrs. W. B. Tedford, 1319 North Broadway, with a large attendance. The meeting opened by singing "Onward Christian Soldiers." A scripture reading was given by Mrs. Leigh Galloway, and there were a number of short prayers. The subject was: "A Backward and a Forward Look."

The main topic on the program was California Dry in 1914, and a number of articles were read by different members. This part of the program was in charge of Miss Sarah Finley. As the work in this temperance campaign will begin at once, it will be necessary to organize a Dry Campaign Society. A committee was accordingly appointed for the purpose of assisting in forming an organization, as follows: Mrs. W. B. Tedford, Mrs. Viola Norman, Miss Sarah Finley, Mrs. S. M. Davis, Mrs. W. H. Thomas, Mrs. Vawter, Mrs. J. N. Anderson and Mrs. Horace McPhee.

The union voted to pay \$5 for the services of one of the members to secure 100 names to the anti-vice fight bill petition. Mrs. Westerbrook will take the petition.

This union is trying to assist the Y.M.C.A. in furnishing books for the library and if any member or friend has a book to donate for this purpose it can be sent to the Y.M.C.A. rooms in the Santa Ana Register building.

There were a number of new names added to the roll at yesterday's meeting, and a number of visitors were present. All are welcome to attend any of the W.C.T.U. meetings, and the union is ready to enroll new names at any time. The members who have not yet paid this year's dues will please do so this month or next, as the treasurer wishes to close this year's work with all dues in.

All members are urged to attend the all-day prayer meeting to be held on Thursday. Notice of the next meeting will appear in the papers. At the close of the meeting Mrs. Tedford served delicious fruitade. All enjoyed the social hour.

Rev. H. E. Murkett at Redlands

The many friends of Rev. H. E. Murkett, who was formerly in charge of the First Methodist church of this city, having left a three years' pastorate here, will be pleased to know that he is now the pastor of the First Methodist church at Redlands. He goes there from Pomona, where he has been located for the past two years.

A minister of unusual ability, a man of sterling worth and strong character, Rev. Mr. Murkett makes an impression on any church with which he is connected, as well as on the community in which he resides. Redlands Methodists are to be congratulated on securing Mr. Murkett and he doubtless will find his charge a most agreeable one.

"THE VOICE OF THE PEOPLE"

Book Section Hears Review of Ellen Glasgow's Book—Mrs. Fyfe Was Reviewer

Last evening the Book Review Section of the Ebell Club met at the home of Mr. and Mrs. Walter Tedford, North Broadway, and listened to a review of Ellen Glasgow's book entitled "The Voice of the People." Mrs. Ella Fyfe epitomized the book and rendered with proper feeling essential selections. The scene is laid in Virginia, introducing some colored dialect which was imitated most successfully.

It is a story peculiarly American, in that it tells how a poor boy, the son of a shiftless peanut farmer, filled with grit and dogged determination, rises superior to his environment and becomes the governor of the state, demonstrating what can be done in this land of opportunity.

An early chapter pictures the boy, redheaded and freckled, but sturdy, withal, and esteemed by his father as equal to a "hand" at farm work, in conversation with the judge, who takes kindly notice of the lad, gives him books to read and a chance to attend school under his own son's tutor. In school he meets other children who tease him about his homeliness and look down upon him as "common."

Eugenia Battles, the daughter of an aristocratic planter, takes the part of poor little Nicolas Burr against his handsome tormentor, Webb, and an affection lifelong begins.

A querulous stepmother, afflicted with neuralgia and overworked, gives him about the only assistance he has in his hard struggle to get an education, as she overrules the father who wants to take him from his books. Indeed for a time he is obliged to cease his law study and work in a store to help lift the mortgage from his home.

Eugenia, to whom he had plighted troth, believes a false accusation against him, when the true culprit was her own brother; a quarrel ensues, he repudiates her, and later she marries his opponent Webb.

The story further relates how he is admitted to the bar, and later on having made many friends among the people by his honesty and fearlessness, is enabled to make a successful run for governor. As governor he is called on to pardon the very man through whose slander the misunderstanding with Eugenia came and his personal happiness was wrecked; the nobility of the man is shown by his granting the pardon. Just at the beginning of a contest in which he is running for United States senator, he goes to his home town where a negro miscreant is confined in the jail, and while endeavoring to persuade a lynching party to let the law take its course, he is fatally shot.

In the discussion that followed the review it was said that in some particulars the story suggested the life of Lincoln, and similar occurrences in real life were mentioned. By the recommendation of the committee, the section accepted the very kind invitation of Mr. and Mrs. Tedford by which the monthly meetings will be held permanently at their home. At the February meeting "The New Alignment of Life," by Ralph Waldo Trine, will be reviewed by L. P. Hickox. At the March meeting, "The Drama in America," by Mrs. H. G. Hull. At the April meeting, "Our Eternity," by Maurice Maeterlinck, will be reviewed by Mrs. A. J. Crookshank.

—O—
The Tustin Twelve

One held by the club of the delightful meetings held by this club was held yesterday with Mrs. C. O. Artz as hostess in her pretty Tustin home. The house was charmingly decorated with pink Maman Cochet roses, and the same flowers, glowing in their rosy loveliness, were employed as a centerpiece for the table on which a delicious two course collation was served late in the afternoon. Smilax extended from the centerpiece to each corner of the table and at each place were tiny pink rosebuds tied with dainty ribbon of the same tint.

During the afternoon the ladies busied themselves with fancy work, and were entertained between the intervals of chat with delightful piano numbers rendered by Miss Ollene Wilbur, a niece of the hostess. The music was especially enjoyed as it brought into effective use the new A. B. Chase piano which Mrs. Artz had received for a Christmas gift. Miss Wilbur was most gracious in responding to requests for different selections asked for by the ladies whose guest she was for the afternoon.

Decides the hostess and Miss Wilbur there were present the following members of the club: Mesdames Ellis Smith, Fred Moorhead, Fred Nimmo, Albert Fuller, Fred Poole, J. S. House, E. J. Cranston, George Pollard, Arthur Hofer, J. C. Stearns.

gin at 10 o'clock, and close at 12, and will consist of singing from the Temperance Songster, prayer, scripture reading, special thoughts, reading of the joint resolution introduced in Congress by Richmond Pearson Hobson, reading plans for national prohibition campaign work and state-wide prohibition, and a symposium on how we can carry out the plans.

The afternoon session will open at 2 o'clock and close at 4 p.m., after the devotional service. Rev. D. Scarborough will give an address on "Prayer, a Power." Mrs. Belle Rogers, county W.C.T.U. president, will speak on "Individual Responsibility." There will be an informal discussion on the question: "What This Movement Means to Me," followed by a prayer service; consecration of time and talents to the campaign for national constitutional prohibition.

The pastors of the city are earnestly requested to join in this all day prayer meeting, and all who are interested in national constitutional prohibition are asked to be present, take part and assist in this day of prayer.

HAVE NIGHT SCHOOL FOR THE SPANISH

A movement is on foot to establish a night school for Spanish children. Last night the school board voted to allow the class the use of a school-room. Pupils are to pay \$2 a month. J. L. Weaver, janitor at the Spanish school, was elected a trustee officer at \$10 a month.

Mr. Montgomery, of the agricultural department of the poly high, stated that grading will be necessary before the grounds can be irrigated. At present there is no drainage. A committee is to look after the matter. Montgomery was asked to have vines planted along the athletic field fences.

Miss Richel resigned as teacher of Spanish at Intermediate School. Miss Laughlin was elected assistant in the art department at the high school.

The board agreed to stand half of the expense of a retaining wall to be built between the manual training building and the Baptist church.

The water stock of Jefferson school was rented to Mr. Fishback of Orange for \$6 a share.

Mrs. Norman and Mrs. Smart were appointed a committee to buy furniture for the model apartment in the domestic science department at the high school.

ARE HOLDING GARCIA FOR ARIZONA CRIME

Although the murder charge against Jacinto Garcia is too old for successful prosecution in this county, Garcia may go to the penitentiary on another charge. He was arrested at El Centro for the murder of Molino in Santa Ana five years ago. Sheriff Meadows has been wired that Garcia is wanted at Tombstone, Ariz., for participation in a cutting affair near there. Meadows has been informed that this county does not want Garcia.

Intermediate H. S. Notes

[By Carl Burns]

The Parent-Teacher's meeting was held this afternoon at 3:15. A large number of the parents of the pupils attended. A program followed.

The Intermediate School entertainment will be given tonight at 7:30. It is hoped there will be a full house. Stanley Mansur and Perry Thomas were forenoon visitors at the I. S. today.

Irving Hadley of Tustin visited Section 1 this morning at the I. H. S.

Mr. Ziehlman asked Sammy Leake how long Columbus had been dead and Sam said: "I never knew the guy was even sick."

LUBRICANT PLANT AT BEACH CITY HAS SECRET PROCESS

LONG BEACH, Jan. 14.—Until recently the fact that a lubricant manufacturing plant is located just across the Pacific Electric tracks that run to San Pedro and south of the glass factory has not generally been known. All publicity regarding the enterprise has been withheld because the plant manufactures lubricants from California oils by a secret process. The three and a half acre site and the first unit of the plant are inclosed by a high board fence to keep away the curious. The owner of the plant is the Radiant Lubricant Company of Los Angeles, which now has stored in its tanks 500 barrels of finished product.

The president of the company is King C. Gillette, the safety razor magnate; George Rathmun, an Iowa banker, is vice-president; E. R. Root, nephew of Senator Elihu Root, is treasurer; Albert H. Smith, who perfected the refining process in use, is secretary of the company and manager of the refinery. V. A. Martin is sales manager.

Miss Belle Willard to Wed Kermit Roosevelt

The engagement of another of the children of former President Roosevelt has just been announced. Kermit to wed Miss Belle Willard, daughter of the American ambassador to Spain and former lieutenant governor of Virginia.

The marriage will take place probably this spring. Miss Willard is a real Virginia belle and one of the most beautiful girls ever seen in Washington society.

The Willard family, whose home is in Richmond, is one of the oldest in the state. The New Willard Hotel was named after it and is now owned chiefly by the American ambassador.

This engagement has been brewing for a long time. More than a year ago Kermit Roosevelt and his sister, Mrs. Richard Derby, were guests of the Willards on a long hunt through Virginia. Miss Willard was one of the guests at the wedding which made Miss Ethel Roosevelt Mrs. Derby.

Kermit Roosevelt, second son of the former president, is twenty-four. Since the summer of 1912 he has been in Brazil and is now an officer of the Anglo-Brazilian Iron Company in Sao Paulo. He is tall and well set, and has won honors as an athlete.

He interrupted his studies at Harvard in 1908 to accompany the colonel on the latter's African hunt as photographer to the expedition.

In the fall of 1911 he resumed his studies at Harvard and was graduated in June, 1912.

Dave Fultz Preparing
Fight for Ball Players

Dave Fultz, New York lawyer, former center fielder of the New York Americans, and president of the Baseball Players' Fraternity, is ready for the meeting of the National Commission, at which the demands or requests of the players will be presented. No players, at least none of those who have followed the instructions of the fraternity managers, have signed their contracts for 1914, and they will not do so till after the meeting, where their requests for change of contract are to be presented.

The fraternity committee to appear before the commission is made up of these players: John P. Henry, Jake Daubert, Ray Collins, John Miller, Edward Reulbach and Fultz. "It has been erroneously reported that the fraternity will make a fight against the reserve clause," said Fultz. "There is nothing in our petition, with the exception of the eleventh and twelfth requests, which ask that the veteran player, when no longer wanted in the classification in which he has labored for years, be released outright. As these requests are not aimed at the principle of reservation and only slightly affect the operation of this clause, they cannot with justice be characterized as antagonistic to it."

HOUSE UPHOLDS SEC. LANE
IN POSITION ON RADIUM

WASHINGTON, Jan. 14.—By a vote of 188 to 119 the House yesterday defeated a motion made by Representative Taylor of Colorado to refer to the public lands committee the Ferris and Foster bills, authorizing the government to withdraw from public entry all public lands containing radium-bearing ores. The vote means that the house approves the position of Secretary of the Interior Lane.

WASHINGTON, Jan. 15.—Dr. Howard A. Kelly, radium expert of the United States, will advocate Monday before the house committee on mines and mining, government ownership of all public lands bearing ores that might contain radium.

Dr. Abby, famous New York physician on cancer treatment, will appear at the same time before the committee. He is expected to urge government control of all radium bearing ores that the hospitals of this country and the scientists now applying radium to the treatment of cancer shall have the use of this remedy without extortionate charges.

FORT McARTHUR TO HAVE
40-COMPANY GARRISON

LOS ANGELES, Jan. 14.—Fort Arthur, at San Pedro, will have a garrison of four companies of coast artillery, comprising about 500 men, according to a statement issued yesterday in Washington by Brigadier General E. A. Weaver, chief of the Coast Artillery Corps.

This garrison will not be installed, however, for two or three years, General Weaver said, for the guns are not placed nor the fort built, nor the barracks begun.

"Either" and "Neither"

There are two or three things about these two words that one should remember. In the first place, they should never be used in connection with more than two things—as: "It was either 'Tuesday' or 'Wednesday,'" not "either 'Tuesday,' 'Wednesday,' or 'Thursday,'" "it was neither 'Tuesday' nor 'Wednesday,'" not "neither 'Tuesday,' 'Wednesday' nor 'Thursday.'" Then, either should not be used in the sense of each, as "they walked on, one on either side of the road." It should be one on "each" side of the road. The third caution is about the pronunciation. Some persons insist that they should be pronounced "ither" and "nither," with the "i" long. But this is more an affection perhaps than anything else. The best authorities

GOV. AMMONS IS ADAMANT IN 3 CASES

Not in Favor of Hanging But Only Sure Penalty for Some Men is Gallows

DENVER, Jan. 14.—Elias M. Ammons wouldn't hang any man, but he is going to see that three of them are hanged during the next few months unless the supreme court interferes to save their lives.

The governor does not propose to let his personal, sentimental notions influence him on behalf of Harold F. Henwood, Oscar Cook and Harry Hillen when the hour strikes for these three slayers to step upon the death trap. Henwood shot Sylvester Von Paul, the St. Louis airman and millionaire, in a quarrel over a woman in the Brown Hotel bar here.

Cook killed two men who resisted him when he held up a saloon, and Hillen, a hold-up man, shot Thomas Chase to death when the latter didn't hold up his hands fast enough when ordered.

"I wouldn't hang any man," said the governor to the United Press today, "but I am here to see that the laws on the statute books are executed, no matter whether I agree with those laws or oppose them. In some instances of course, there are extenuating circumstances and clemency is justified. For instance, when a man is of unsound mind, I wouldn't sit calmly by and let him be hanged. But the only sure punishment that can be meted out to some criminals is the punishment that forfeits life for the one taken."

"Which means that I haven't any faith in the life sentence being a life sentence if there is a pull beyond the walls. Some years ago there was a house here inhabited by Italians—musical fellows. One of them,"

American Woman Forced to Wed Pancho Villa, Former Bandit and Conqueror of Chihuahua

TORREON, Mexico, Jan. 14.—When Pancho Villa, who swept the federal forces from Juarez and then led his victorious troops south to Chihuahua taking that city, the largest in the northern part of Mexico, wanted a wife he merely went back to his old bandit methods to get one. He chose an American woman and ordered her to wed him on the spot. She did, according to the story here.

But so far she has not complained to any American consul, and no action has been taken by the United States government.

Villa, at the head of some of his troops, entered the American Clothing Company office and saw the young

more thrifty than the others, had saved \$1100 which he stowed away in a teapot in the cupboard.

"One night the 'capitalist' was in the room with a friend. The other inmates of the house were gathered below playing their mandolins and guitars and concertinas. Two of them left the group and went upstairs."

woman cashier of the place. He decided that he wanted to wed her, and the story goes that he sent for a priest, who was compelled to perform the ceremony. The affair created little comment here at the time, for it was merely another illustration of the methods of Villa when he was a bandit and since he has risen to power as an insurgent against the government.

When Villa left Torreon on his northern campaign his wife rode beside him in the finest carriage he had been able to seize. She seemed contented. It is understood she has accompanied him on his campaigns ever since, and is now with him in Chihuahua.

The music went on growing louder and louder until the door was suddenly pushed open and one of the men who had gone upstairs entered, his hands dripping with blood and holding a sack.

"At the end of a week, people passing the house noticed a sickening odor. The victims were discovered and the police got the murderer. The ringleader confessed and told how he arranged the music in order that any cries for help would be unheard. That man went to the penitentiary for life. In exactly eight years he was released. He had an aged mother who was in poverty, or some such story was given as the basis for his pardon. Was that man punished? He was not."

GIVE YOUNG MAN ANOTHER CHANCE

Colorado Jurist Urges Adult Probation Law to Save Country's Young Men

DENVER, Jan. 14.—"Every young man convicted for the first time should be given another chance except when conviction is for the most serious offenses. That chance need not be through his being turned loose on the community. We should have an adult probation law, enabling men to be put on probation as boys are, in the state reformatory, and given his freedom as soon as his behavior, his intentions, his past and the history of his parentage may warrant."

Judge Charles C. Butler, who today finished his first year on the criminal bench here, gave in these words the gist of his theory of real justice which one year of dealing with criminals of all classes caused him to formulate.

"Under the present system," he continued, "except in the rarest cases where the judge exercises the limits of his discretionary powers, the good, bad and indifferent must be sent to the penitentiary if certain verdicts are rendered. Colorado doubtless has one of the best conducted prisons in the country but any penitentiary is a breeder of criminals."

"For hardened men who persistently defy the law and for those who are

predetermined from birth to commit crimes, the penitentiary is necessary and no one is a greater believer than I am in the segregation of the real criminal. But my experience on this bench has taught me that only a small per cent of the men and women who are convicted before this bar are criminals by instinct and desire. That society will ultimately deal with the born criminal, not as a criminal, but as a diseased individual, I have no doubt.

"The problem of the hour in Colorado is the obtaining of an adult probation law whereby those who have been convicted of their first offense will be sentenced only tentatively, to be released if it is proved that society will be benefited more by their freedom than by their imprisonment."

A Potpourri of News and Views

From the Los Angeles Financial News

Los Angeles Is Prosperous

The general outlook in the business world of Los Angeles is for the better, and the coming year will be better than ever. This is the general consensus of opinion of the more conservative of the business community. Talking upon general business conditions, John E. Fishburn, president of the Los Angeles Clearing House Association, said:

"Now that taxes have been paid and this drain on local money has ended, there will be an improvement in the financial condition in Los Angeles. The cash that has found its way into the city and county treasuries will be paid out again to the people in a short time and will be in circulation again. This will make a material improvement. Los Angeles will enjoy prosperity during 1914, regardless of the financial conditions in the East. This city is different in many ways than any other city in the country, and will have prosperity that no other city can expect. This is due largely to the climate here, which attracts people with money."

Regarding the currency question, Mr. Fishburn is quoted as of opinion that it will have a wonderful effect on the financial condition of the entire country. He says that if the bill is passed in its present form it will do away with the necessity of the financial centers keeping large sums on hand as "call money," and that the smaller banks can get money on securities without making sudden demands on the financial centers.

President J. F. Sartori of the Security Trust and Savings Bank is as optimistic as Mr. Fishburn and is quoted as saying:

"It is certain that money is rapidly growing easier in Los Angeles. Financial confidence is being shown. We have started in to make loans freely on first-class building investments, and other banks are doing the same. There is a general good feeling being expressed by all."

"I think that whatever defects, from the standpoint of some of the bankers, the pending currency and banking legislation has, it is conceded that it meets a good many of the fundamental requirements of a sound banking law, and I am of the opinion that its passage will create a freer feeling in the money market of the country."

Mexican Petroleum Passes Dividend

Directors of the Mexican Petroleum Company, Ltd., at their meeting in the company's offices in Los Angeles, Tuesday, decided to pass the dividend on the preferred stock. There are \$12,000,000 of preferred stock issued, the entire capitalization, and on this the company has been paying a quarterly dividend of 2 per cent, the last one having been paid on August 20.

The action of the directors was not unexpected, in view of the revolution in Mexico, and is simply a precautionary measure, for the company has ample funds in its treasury to meet the dividend. In view, however, that dividends on the common stock have been passed, it was deemed advisable to pass the dividend on the preferred.

National Currency Outstanding

On the 1st inst. there was outstanding in national bank notes \$757,159,471, a decrease as compared with November 1 of \$1,740,238. The denomination of these national bank notes was as follows:

Ripley Not to Retire

A report that E. P. Ripley will soon retire as president of the Atchison, Topeka and Santa Fe Railway and will be succeeded by Vice-President W. B. Storey, Jr., is vigorously denied at the general offices of the company in Chicago. "President Ripley has entirely recovered from a recent illness and has given no indication whatever of desiring to retire," said an official of the road. "He is vigorous both mentally and physically and his retirement would be a severe loss to the company."

Why Living Is High

Why the cost of living comes so high is shown by an analysis by experts in the Department of Agriculture of commercial bouillon cubes. The commercial cubes, according to the analysis, contain from one-half to three-quarters of table salt, and as their price ranges from 10 to 20 cents an ounce, "purchasers are buying salt at a very high price." The cubes are said to be valuable as flavoring agents and they do contain a small quantity of muscle-building material.

Eshelman Tendered Post

President John M. Eshelman of the California State Railroad Commission has, it is stated in Sacramento, been offered by President Wilson the position on the Interstate Commerce Commission made vacant by the death of John H. Marble. The offer was declined for various reasons. The position pays \$10,000 salary per annum.

Declares Franchise Forfeited

Declaring that the Pacific Power and Light Corporation has forfeited its franchise to run a power line from Artesia to Newport Beach, C. H. L. Christie has filed notice with the Board of Supervisors of Orange County. Christie, who owns a light plant at Newport Beach, maintains that work was not commenced soon enough by the corporation to be within the franchise provisions.

Trust Company at Riverside

The Peoples Loan and Trust Company, with a capital of \$100,000, has been organized in Riverside and articles of incorporation have been filed. It is the first company of the kind to be organized in the county. The directors, five of whom are Chicago capitalists, are K. D. Harger and Raymond Best of Riverside; and John B. F. L. D. F. and J. C. Odell, and E. E. Hoxie, of Chicago.

To Operate Savings Bank

The Savings Bank of Tulare has been authorized by the State Superintendent of Banks to operate a savings department.

Option on Union Oil

Negotiations for the taking over of the option on the Union Oil Company by the Syndicate which has taken the General Petroleum Company, the latter holding the option, are still being carried on. It was said during the week that the deal had practically been closed, this statement being due to the fact that the general counsel of the General Petroleum Company, A. L. Weil, was in Los Angeles and it was said that he was here for the purpose of drawing up the final papers. President de Sable was also here.

At the San Francisco end of the line the information is imparted that Messrs. Weir and Smith have been cordially received by the negotiators on the other side, and favorable consideration given to their proposals. Both these gentlemen have announced that they have a market for the output of Union Oil and that they are in a position to finance its purchase. All that remains is to convince them of the worth of the property. The deal may be carried out on the terms of the original option or it may not, but the impression is quite general that it will be carried out in some form.

The San Francisco Chronicle, commenting on the negotiations which have been going on regarding the passing of Union Oil and the method of taking over the minority holdings in the company, says:

There is only one way the minority holdings could be taken over, and that is to buy them with the full consent of the holders, either for cash or securities. It is known that the minority stockholders of United Petroleum, including William R. Staats and J. S. Torrance, have openly expressed the hope that the control of Union Oil would not pass in accordance with the terms of the option held by E. J. de Sable Jr., although he has obligated himself to take their stock at the price offered by Lyman Stewart if they are disposed to sell. It is questionable whether General Petroleum, Limited, would care to take over control of Union Oil if there remained a violent opposition among the minority, and it is believed that the negotiations now pending are directed toward removing this opposition. Both Mr. Weir and Mr. Smith believe that the pending deal is in the interest of everyone concerned and of great benefit to the oil industry of the State. The refinancing of these two great companies will certainly impart financial strength to the entire State, and it is probable that the two English financiers are now engaged in an effort to impress their ideas on those who are directing the affairs of Union Oil.

Record January Dividend Payments

Dividend and interest payments on January 1 will establish a high record, in spite of the reductions which have been made in the rate of return on their securities by a number of corporations. Figures compiled by the New York Journal of Commerce show that in January \$248,025,434 will be paid in dividends and interest by railroads, industrial and traction companies, the National Government, and Greater New York.

New bond and note issues account for this large amount, which compares with \$243,130,943 last January, an increase of \$4,894,491. The sum of \$98,850,411 will be distributed to stockholders in the way of dividends, or \$1,467,854 less than in January, 1912. There are some additions to the list, and also a few larger payments, but corporations in a number of instances have either reduced their disbursements or passed them altogether. Interest payments will call for the sum of \$149,175,023, or an increase of \$6,392,345. The City of New York will distribute \$9,500,000, chiefly on account of maturing revenue bonds. A summary of the January dividend and interest disbursements follows:

| | 1914 | 1913 |
|--------------------------|---------------|---------------|
| Railroads | \$ 32,948,842 | \$ 33,909,178 |
| Industrial and traction | 49,236,807 | 59,073,576 |
| Street railways | 8,136,761 | 7,932,511 |
| Bank and trust companies | 8,500,000 | 8,400,000 |
| Total | \$ 98,850,411 | \$100,315,265 |
| Interest Payments— | | |
| Railroads | \$100,100,000 | \$ 97,500,000 |
| Industrial and traction | 21,000,000 | 22,200,000 |
| Street railways | 12,500,000 | 10,000,000 |
| Government | 3,275,023 | 3,247,678 |
| Greater New York | 9,500,000 | 9,465,000 |
| Total | \$149,175,023 | \$142,812,678 |
| Grand total | \$248,025,434 | \$243,130,943 |

Seeds Locked in Bank Vault

In the safety deposit vaults of the Union Trust Company and Seaboard National Bank, San Francisco, there are deposited seeds that are more valuable than diamonds and which if lost or destroyed could not be duplicated, and are the property of the Luther Burbank Company. They represent more than a quarter of a century of work by the "plant wizard," and are awaiting the coming of spring, when they will be planted.

One is the seed of a new kind of flax, from the oil of which artists' paint is made, and the other is a cereal, known as quino, to take the place of wheat, oats or barley.

There is not a peck of these seeds in the world. They are not for sale, but have been developed to supply two needs of the commercial world.

Burbank says that the oil from this seed is what manufacturers of painters' materials have endeavored for years to produce; that is, absolutely neutral. The seed is of large size and a big oil producer. The plants grow well in California.

Millions in Automobiles

California invested \$46,908,000 in automobiles in 1913, leading all other States in the purchase of motor vehicles. Basing the cost of an average machine at \$1500, it is estimated that since the date of the law requiring the registration of automobiles in the State, which was in 1905, that the investment in motor vehicles in California has amounted to \$183,850,000. In 1913 the number of new cars registered was 31,272, which was 2112 more than in 1912, and exceeded the State of New York by more than 2600. This year motorcycles will be subject for the first time to a registration fee.

Stock Exchange Seat at \$40,000

The New York Stock Exchange seat of Milton J. Whitely, of Prince & Whitely, 52 Broadway, has been posted for transfer to E. S. Burke, Jr., of Cleveland. The price was \$40,000, unchanged from the last previous sale. The seat was sold last week. M. J. Whitely will retire from the firm of Prince & Whitely at the end of the year.

Change in Bank Officers

C. P. Carl has been elected cashier of the Bank of Hemet, vice J. S. Seales, resigned, and who will head a new bank at El Centro. Mr. Carl was the assistant cashier of the bank.

LOS ANGELES PRODUCE MARKET

The limitations of the fruit market are becoming daily more apparent by the number of varieties that are no longer obtainable. The melon season is finally at an end. There are still a few casaba melons obtainable, but even these will be gone within the week. Christmas melons disappeared commercially about the same time that the holiday passed. On the apple list Baldwins have been dropped entirely. The end of Bellefleurs is in sight, and it is only a matter of days before this apple is cleaned up. Winter Nones and French Bartlett pears are selling from \$1.25 to \$1.50 per box, and are not at all plentiful. Tropical fruits are an exception to the rule and a large shipment of pineapples received yesterday morning caused the market to decline to 6 cents. Bananas continued a glut.

On the market there were no great changes. Eggs declined 1 cent on the lighter buying of the morning. This puts the market 2½ cents lower than the San Francisco quotations.

Butter was stationary at 28 cents. This same figure was recorded in San Francisco yesterday. Trading was very active. There was little demand for the seconds and cooking stock offered. Prices on this character of butter are low. Receipts were 53,150 pounds.

WATER PROJECT WELL UNDER WAY

Irvine Piping Supply to Corona
Del Mar and Balboa
Island

BALBOA, Jan. 14.—A water project of considerable magnitude is being installed by James Irvine, owner of the 114,000-acre San Joaquin ranch. The source of water supply is artesian wells situated near the San Joaquin Gun Club. A 12-inch concrete tile pipe line is being laid from there to Corona del Mar and beyond, the route being along the bay at the foot of the bay cliff. The water supply is said to be principally for domestic purposes, although there is sufficient quantity for irrigation as well. Among the consumers of this water Balboa Island, it is said, will be the largest, the line passing that point and a reservoir is to be built on the hill back of Corona del Mar, which place will be also supplied with the San Joaquin water. A large force of men are at work on the project, and it is expected to be completed within a short time.

Project—Ahlborn Has
Retired

ANAHEIM, Jan. 14.—The local capitalists behind the proposed erection of an ice and cold storage plant have decided to co-operate with the National Bonding Company of Los Angeles in organizing an ice company here. At the meeting of the Board of Trade last evening the project received the full indorsement of the members after the committee appointed for the purpose of investigating the public utility had made its report. Herman Stern, chairman of this committee, stated that approximately \$12,000 had been subscribed and suggested that inasmuch as the bonding company was in favor of having local men manage and control the ice plant, he believed that it would be advisable to accept their offer of financial assistance.

The committee was instructed to make arrangements with regard to a suitable location, and construction work will commence at an early date. It is the intention of the company to expend \$25,000 in the erection of buildings and the installation of a twenty-ton plant.

News Notes

The stockholders of the Pacific Mausoleum Company held their annual election of directors for the ensuing year yesterday. Frank A. Morse, R. J. Laidlaw, H. Clay Kellogg, Max Nebelung and F. A. Krause were elected.

J. Frederick Ahlborn, who has been active for the past twelve years in the Chamber of Commerce and Board of Trade, formally tendered his resignation at the meeting last evening. Mr. Ahlborn has been unceasing in his efforts in building up the better interests of these organizations and active at all times in the progress of

LOS ANGELES IS USER GOOD MEAT

City's Call for Mountain Has
Grown 238 Per Cent in
the Past Year

LOS ANGELES, Jan. 14.—The phenomenal development of Los Angeles as a stock market for the intermountain states of Montana, Utah, Nevada, Idaho and Colorado is shown by the gain of 238 per cent in stock shipments to this city over the Salt Lake railroad last month, as compared with December, 1912.

There were received here last month from the territory mentioned 238 carloads of sheep, cattle, hogs and

horses while the corresponding period in 1912 totaled eighty-eight carloads, thus recording a gain of 210 cars, according to William F. Lincoln, assistant general freight agent of the Salt Lake road.

Sheep receipts leaped from 16,250 head in December, 1912, to 43,250 head last December. Hogs shipped in December, 1912, numbered but 309, while last month the business of shipping to Los Angeles reached a maximum of 13,250 head.

"Los Angeles is known today as a highly desirable stock market to every stock raiser in the western states," said Mr. Lincoln yesterday.

"The city enjoys the reputation of a high-class residence metropolis with the added advantage of possessing a large number of first-class hotels and cafes which buy the best meats that money can obtain.

As Illustrated

The high power machine was chugging along at the rate of 50 or 60 miles an hour.

"In motor cars, as in everything else," observed the owner, who was running it himself, "speed costs money."

"You bet it does!" commented his friend and passenger, as a rural policeman who had been hiding behind a tree, suddenly sprang into the middle of the road a hundred yards ahead and pointed a wicked looking revolver at them.

PERSONAL TRIBUTE PAID AMOS WRIGHT

The Issue, a Prohibition paper published at Lordsburg, has the following communication concerning Amos Wright of Fullerton, who died recently:

Editor Issue:—May I ask for the privilege of saying a few words in reference to the life of Amos Wright, whose funeral I have attended today? I have known him for a dozen years or more and have always thought of him as one of the most faithful, patient, persevering, never-say-die prohibitionists within my circle of acquaintance. There have been times during the last dozen years when most any prohibitionist could not have been blamed if he had given way to discouragement. The failure of those whom he had a right to expect to stand with us at the ballot box to do so, when their duty seemed so clear and positive, caused all but those of great faith and pluck and perseverance to hesitate and question whether after all, the struggle was worth while. I never knew Mr. Wright to hesitate or to question the wisdom of our political action. Believing most thoroughly in the righteousness of our cause and the wisdom of our methods, he went straight ahead in his work without faltering, and, while he did not live to see victory perch upon our banner, he did live long enough to plant a large field of right principles and purposes, which will count mightily in the final victory.

This is strikingly illustrated in the activity of his daughters, who have inherited his sturdy principles in carrying them out in the present California "dry" movement. One of his daughters, Mrs. Lizzie Gilman, of South Pasadena, was one of the two largest contributors to the fund raised at our recent state convention, giving us one thousand dollars on that occasion. She and her sister, Mrs. E. I. Ames, also of South Pasadena, spent several days working on the streets of Los Angeles, securing names to our petition to have our amendment placed upon the ballot.

After all, the best legacy we can leave to our children is to teach them, by precept and example, to live lives of usefulness and honor. Thus will our memory be cherished and our influence be perpetuated.

Accident to Baby

Orange News: The 16-months-old son of Mr. and Mrs. A. L. Tomblin was painfully hurt Saturday by contact with a hot electric iron. The baby was playing beneath an ironing board over which his mother was at work, and pulled the cord attached to the iron, which fell upon him. The point of the iron struck the child's forehead, cutting a bad gash besides searing the flesh as it touched him. The injury will not prove serious.

WILL BUILD DOUBLE TRACK TO FULLERTON

Recognizing that the opening of the San Diego exposition will make the line from Los Angeles to Fullerton perhaps the busiest stretch of track on the entire Santa Fe system, the management of that road is now making plans for its double-tracking during the coming summer. Surveys also have been made for the double-tracking of the twenty-two miles of line between Ludlow and Bagdad. Together these jobs will cost the Santa Fe between \$750,000 and \$1,000,000.

In Santa Fe circles the belief is expressed that the appropriation for the Los Angeles-Fullerton work will be made soon.

The Santa Fe also proposes to put 125 additional miles of track under block-signal operation during the year and has also ordered thirty-five locomotives for delivery by 1915. The block-signal work will cost around \$1,500,000, while the locomotives will cost \$600,000.
